

ALLIED
NUTRITION

Pelleted

Cattle

Feedlot 40-20 B500

Estimate average daily intake of air dry feed (90% dry matter) prior to mixing and feeding so that the specified additive levels are consumed. Thoroughly mix 4 to 5% of this product with non-medicated feed to provide 24 to 30 grams of Lasalocid per ton to finished feed. Feed mixed ration continuously so that each animal consumes not less than 200 mg of Lasalocid nor more than 360 mg of Lasalocid. Each pound of this product contains 300 mg of Lasalocid.

Guaranteed Analysis

Crude Protein	min 40%
